
Medical Training Initiative (MTI)

The MTI is one of the busiest areas of Academy work.

In the last year we have issued certificates of sponsorship for 635 doctors from 38 different countries who come to the UK to participate in the MTI scheme.

Priority is given to applicants from low and lower middle-income countries. 85% of those we sponsored were from these countries.

MTI doctors took up posts at 14 Deaneries across the UK. The vast majority in London and the West Midlands.

MTI doctors must also be sponsored to be registered with the GMC. In the last year, 12 medical royal colleges have sponsored MTI doctors and supported them through their training.
